

Privacy statement

1. General

Thank you for your interest in the Innovision GmbH site (referred to briefly as “Innovision” in this letter). The issue of data protection and confidentiality is a topic we take very seriously by us, and we follow the applicable national and European data protection regulations. With this statement on data protection measures, we would therefore like to provide you with information on the kind of data which we may wish to save and how we use such data.

2. Storage and use of data

As a visitor to our Web site, you will remain anonymous. The data we save and analyze is used for statistical purposes only, for instance to ensure the continuous improvement of our services. The data we save to our servers comprises the name of your internet service provider, the Web site from which you have visited us, the Innovision Web pages you have looked up, your IP address and the date and duration of your visit.

3. Collection, processing and use of personal data

We only collect and process personal data if you make use of specific services and if you have voluntarily given us your express consent. You may do so, for instance, as part of a registration procedure, by completing a form or by sending an e-mail, ordering products or services, sending us a query or requesting materials. Unless we are subject to other legal commitments, we only use your personal data for the purposes for which you have given your consent.

4. Data storage

We only store data for the period of time that is required to conduct the service you have requested.

5. Right of access, correction and objection

You are entitled to review and correct any of your personal data we have saved, and you may withdraw your consent to the use of your data at any time, affecting all future use. All you need to do is send a message by e-mail to info@innovision-consult.com

6. Data protection and security

All our staff and all third parties involved in data processing are subject to commitments under the Bundesdatenschutzgesetz (German Data Protection Act) and are obliged to confidentiality in the use of personal data. Our data protection measures are continually updated, reflecting technical developments.

7. About us
